MILLIONS OF PEOPLE HAVE BEEN CURED OF A DISEASE MOST PEOPLE THINK IS INCURABLE.

We've made significant progress against most forms of cancer.

But, as far as many people are concerned, cancer is still a fatal disease.

There are nearly three million people who would disagree. People who have had cancer and are now cured.

For certain forms of cancer, the progress we've made is nothing short of miraculous.

With early detection and prompt treatment, the survival rate for Hodgkin's disease can be as high as 74%. Childhood leukemia: as high as 65%. Colon and rectal cancer: as high as 75%. Breast cancer: as high as 90%.

Today, one in every two people who get cancer will survive.

As far as we've come, we still have quite a way to go. And for that, we'd like your help.

There's only one place where cancer is a hopeless disease: In your mind.
