Throughout history, people have worn hats for a wide variety of reasons, including protection from the weather, religious ceremonies, important events or as symbols of social status or profession. Today, most people wear hats simply to represent their personal sense of style.

Hang On To Your Hat

The term "mad as a hatter" stems from mental health issues that resulted from working with the toxic chemicals used in the hat-making process during the 1700s and 1800s.

Vendors who supply hats to men are called "hatters." Those who supply hats to women are called "milliners."

Old Hat

One of the oldest pictures of a hat was found in a 5,200-year-old Egyptian tomb.

In the 1800s, French magician Louis Comte and Scottish magician John Henry Anderson became two of the first to pull a rabbit out of a top hat.

The "pith helmet," or safari hat, was worn during the 1800s by European military officials, explorers and missionaries.

The top of a hat is called the "crown."

Hat Trick

Can you spot all six differences between these two scenes?

GAME ANSWERS: 1. Tail is missing. 2. Broom is missing. 3. Band is missing. 4. Hat is missing. 5. Dress is wider. 6. Tag is missing.

Word Search

Can you find the hidden words? Search carefully because some words are backward or diagonal.

Vikings never wore horns on their helmets.

Why did the witch quit after flattening her hat? There was no point to it anymore.

Shortcuts by Jeff Harris

Hats off to Hats

This edition of Shortcuts is sponsored by Brad Pith.

I've got this acting thing covered.

What type of hat isn't worn on your head? A kneecap.

The height and number of folds in a chef's hat, or "toque," were originally intended to represent the chef's skill level and experience in the kitchen.

The "trapper hat" originated from the Russian "ushanka" hat designed in the 1600s. It gained popularity with American fur trappers during the 1700s.

The top hat was popular in Europe during the 1700s and 1800s. The height of the hat was often seen as a symbol of the wearer's wealth and success.

The baseball cap first gained popularity in the 1860s in Brooklyn.

The beret was a brimless hat that originated in southern France and northern Spain during the 1600s.

Did you hear the joke about the hat? Never mind, it's over your head.

LOOKING FOR AN AFFORDABLE USED CAR?
SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. [www.centralautosalesllc.com](#) 607-336-6371.

FALLCARE

Topics to discuss before hiring your next mechanic

Few decisions weigh as heavily on automobile owners as their choice of mechanic. A good mechanic goes a long way toward ensuring drivers and their passengers stay safe on the road and that those drivers’ vehicles perform at their peak for years to come. That’s an important role to play, and it’s why many drivers acknowledge that choosing a mechanic is a decision that should not be taken lightly.

Rest assured you don’t need to be a car guy or gal to find a trustworthy and talented mechanic. You might just need to open a dialogue with a prospective mechanic, discussing a handful of topics that can help you feel more comfortable and know you have made the right choice in automotive service provider once a final decision has been made.

Certification

Certification can go a long way toward helping drivers find mechanics they can trust. The National Institute for Automotive Service Excellence was founded in 1972 and continues to work to improve the quality of automotive service and repair by testing automotive technicians and certifying those who live up to or exceed ASE standards. An ASE-certified technician should have his or her credentials readily available to prospective customers, and these credentials list each professional’s area of certification. When shopping for a new mechanic, make sure that he or she is ASE-certified. In addition, discuss with the mechanic his or her

work history, including any additional areas of expertise.

Pricing policies

Many mechanics offer free estimates, but that should not be taken for granted. When bringing a car in for an estimate, drivers should confirm with the mechanic who will conduct the examination if the estimate is free or if they will be charged an inspection fee.

In addition to any fees regarding estimates, drivers should also inquire about labor costs and the payment policies at the facility. Labor can be quite expensive, so it’s best that you know these rates in advance of any repairs being conducted on your vehicle. It’s also important to get a rundown of the company payment policies, especially if your vehicle is in need of potentially costly repairs. You don’t want the bill to shock you once the work has been completed, so don’t hesitate to be inquisitive before leaving a car at the garage.

Parts

Replacing parts on a vehicle is a cause for concern for many drivers, and rightfully so. Consumer advocacy groups have exposed many mechanics who pass off used auto parts as new parts, charging their customers new part prices along the way. While there’s no way drivers can guarantee they won’t fall victim to such criminal behavior, they can inquire about company policies regarding vehicle parts. Does the garage even install used parts? If so, do they let drivers choose either new or used parts before any work is done? If the garage only uses new parts, ask for parts with solid warranties, so if the part must be replaced, you won’t have to pay for it again.

Documentation

The preowned vehicle market is thriving, and drivers who take care of their vehicles have earned the right to reap their rewards for being good owners when it comes time to sell the car. When interviewing prospective mechanics, ask if they are willing to provide detailed documentation of any work they do on your vehicle. Such documentation can then be shared with prospective buyers when you want to sell the car, and it also serves as a way to keep the garage accountable for all the work they have done on the car throughout your relationship.
