LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

HOWLING TREE LLC Tree Service: Tree Removal, Trimming, Planting and Pruning. Expert Tree Assessments. Superior Service & Budget Friendly Options. 24/7 Emergency & Storm Services. Call Chad : 607-376-1173 for a complimentary quote or to schedule an appointment. Wwww.howlingtreellc.com

How to celebrate and commemorate America's semiquincentennial

Commemorations of America's national history are part of annual celebrations of American independence that take place each year on July 4, which marks the anniversary of the nation's birth. Those celebrations have a reputation for being particularly festive and tend to be capped off by awe-inspiring fireworks displays once the sun sets on the Fourth of July.

The liveliness of annual celebrations of American independence figures to be taken up a notch in 2026, when the United States will celebrate its semiquincentennial. Two hundred and fifty years of nationhood warrants a particularly jovial celebration, and there are many ways Americans can commemorate and celebrate the nation on this momentous occasion.

An era before presidential campaigns

Election Day is an annual event in the United States, and it's one that generates particular excitement when presidential elections are held every four years. The months and even years before a presidential election are typically marked by extensive campaigning by candidates hoping to be voted into the Oval Office, but the first man to serve as President of the United States never actually campaigned. George Washington served two terms as American president, but the Commander-in-Chief of the Continental Army was chosen each time by the electoral college despite never campaigning for

the job. According to the Miller Center at the University of Virginia, the political campaigns modern voters know well did not exist in 1788. Despite the lack of campaigning, Washington was the electoral college's unanimous choice for president in 1789, a feat he repeated in 1792.

AMERICA 250

Impactful events in U.S. history

As the United States celebrates its two hundred and fiftieth anniversary, millions of Americans will reflect on the nation's history. American history includes a great many impactful events that changed the country forever. The following are some events of note as the United States of America celebrates 250 years of nationhood.

• **The Louisiana Purchase (1803):** Soaring prices have been the norm in the real estate market in recent years, but it was once possible to procure 530 million acres of North American territory for \$15 million. That's precisely what happened in 1803 when the U.S. and France completed the Louisiana Purchase. According to the Office of the Historian of the U.S. Department of State, President Thomas Jefferson sent James Monroe to France to work alongside U.S. Minister to France Robert Livingston in an effort to purchase New Orleans and West Florida for \$10 million. But the emissaries were surprised when Napoleon Bonaparte offered the whole territory of Louisiana to the U.S. for \$15 million. Native Americans still inhabited much of the area that was part of the sale, but the transaction included the entirety of what is now Louisiana, Missouri, Arkansas, Iowa, North Dakota, South Dakota, Nebraska, and Oklahoma, as well as portions of present-day Kansas, Colorado, Wyoming, Montana, and Minnesota.

• **President James Monroe addresses Congress (December 1823):** During his annual message to Congress in late 1823, President James Monroe included a warning to European powers that they should not interfere in affairs in the Americas. According to The Gilder Lehrman

Institute of American History, the powers that be in the United States were wary of European intervention in Florida, the Pacific Northwest and Latin America. The result was a statement from President Monroe, later referred to as the Monroe Doctrine, announcing that the western hemisphere was closed to further colonization by European nations. President Monroe also noted that the U.S. would not interfere in the internal affairs of nations in Europe.

• **Sinking of the Lusitania (1915):** Though the Lusitania was a British-owned ship, the U.S. Library of Congress notes its passengers included more than 120 Americans on May 7, 1915, the day the luxury ocean liner was torpedoed by a German U-boat. History.com notes the Imperial German Embassy in Washington, D.C., placed ads in American newspapers reminding Americans that Germany and Britain were at war and that ships flying the flag of Great Britain were vulnerable to attack. Despite the warnings, Americans still boarded the Lusitania, and the sinking of the ship strained relations between the neutral United States and Germany. Anti-German sentiments began to rise in the U.S. after the sinking of the ship, and such sentiments remained even as the U.S. maintained its neutral status into 1917. The final straw, and one that called to mind the sinking of the Lusitania nearly two years prior, was the interception of the Zimmerman telegram, which revealed German intentions to return to submarine warfare and target all ships, including those carrying American passengers.

• **Wall Street crashes on Black Monday (1929):** The stock market crash that began in October 1929 marked an end to the financial boom of the 1920s that the Federal Reserve notes had begun in August 1921 and lasted until September 1929. On what's become known to historians as Black Monday (October 28, 1929), the Dow Jones Industrial Average declined by nearly 13 percent, a fall that preceded an almost 12 percent decline on the following day. By the summer of 1932, the Dow had fallen to its lowest value of the twentieth century and 89 percent below its peak. Black Monday marked the beginning of the Great Depression, and the Federal Reserve notes the Dow did not return to its pre-crash heights until 1954. TF264762

Tips to trace your own history while celebrating America's

Millions of Americans will spend some time in 2026 commemorating 250 years of United States history. The U.S. turns 250 in July 2026, and the summer figures to be an especially celebratory time across the 50 states. As Americans engage with their nation's history, they might be compelled to learn more about their personal history as well. Genealogy has become a popular pastime in the twenty-first century, and the National Archives offers these tips to anyone looking to do some digging into their personal history as they celebrate 250 years of the United States.

- Start with yourself. The National Archives recommends starting with the person you know best: yourself. Your own personal details can serve as a starting point as you work toward more unknown facets of your family history. After you note all of your own details, learn and document all you can about your parents and then do the same in relation to your grandparents.
- Emphasize four vital components. The National Archive notes that names, dates, places, and relationships are the tools of the family researcher. That's because these nuggets of information have long been used to identify people in public records.
- Peruse any existing family archives. Many families have kept their own archives over the years, even if that record-keeping was not widely known within a family. A relative might have kept various types of documents that help to paint a picture of your genealogy. Ask around in the family to see if anyone has kept records, which might include:
 - Newspaper clippings
 - Birth and death certificates
 - Military certificates
 - Marriage licenses
 - Letters
 - Diaries
 - Photographs/photo books
 - Scrapbooks
- Let others know. Inform family members near and far that you're working on a genealogy project. A relative might have beaten you to it, and that person could have lots of valuable information and documents to share. Others might be able to point you toward a relative who has become the unofficial family historian. In addition, cousins and aunts and uncles might have records from their own immediate families, which can help you as you conduct your own research.
- Access government records. The U.S. federal census dates all the way back to 1790, which makes it a potentially excellent source of information for your project. State and county archives also can be wonderful resources that keep records of births, deaths, marriages, and other notable events that can help people trace their family histories. Even local libraries might have records of your family, especially if your family has been settled in the same area for a significant amount of time. American history might be the focal point in the United States in 2026. But that renewed emphasis on history also makes 2026 a great time to study your own family's part in helping the nation make it to its 250th birthday. TF265838
