**Madison County Fair Board
Notice of Annual Meeting**

Notice is hereby given that the 2025 Annual Meeting of the Madison County Fair Board will be held at Flicks Tavern in Brookfield, NY on Monday, December 8th. Dinner is at 6:00p.m. with a covered dish meal, followed by the annual general meeting at 7:00p.m. Anyone interested in becoming involved with the Madison County Fair is welcome to attend.

The agenda will include:

1. The report of the directors and the accounts for the year ended 2025.
2. The election of new board members for vacancies on the board and/or re-election of members whose terms are expiring, that are eligible and offering themselves for re-election.
3. The election of officers.

Nominations for the Madison County Fair Board will be accepted until November 18th. For more information or to make a nomination please call the Madison County Fair Board Secretary, Terry Tanney at 315-525-1739. Visit us online at www.madisoncountyfairny.com

CHENTAC

CHENANGO THREAT ADVISORY COMMITTEE

**HELP KEEP OUR COMMUNITY SAFE!
SEE SOMETHING,
SAY SOMETHING.**

The formation of CHENTAC was established due to the ever-changing risks of targeted violence and mass shootings that society faces today. CHENTAC takes effective proactive and protective measures that are designed to prevent-not predict potential acts of targeted violence and terrorism. Through identifying and managing potential threats, CHENTAC provides alternative to investigation and/or prosecution for bystanders who are actively seeking intervention assistance with a known individual at risk of mobilizing to violence.

YOU'RE ROLE IS IMPORTANT!

CHENTAC is relying on you, our biggest asset to help identify potential threats. If you become aware of someone exhibiting concerning behaviors, or threatens a person, group or entity, we are available to help.

TO SUBMIT A TIP CONTACT OUR REPORT LINE AT 607-334-2000 or visit www.chenangocountyny.gov/691/CHENTAC

Easements Relating to the Village of New Berlin Potable Water Project

Design work continues on the Village of New Berlin's drinking water infrastructure upgrade. The Design and project management engineering firm, Barton & Loguidice, has divided the design work into two portions: 1) Water treatment and storage, and 2) water-main replacement and distribution network upgrades. Monthly public workshops conducted over the last several months have brought both design tracks to the 60-percent point.

Construction on this project is scheduled to start in mid- 2026 and run through the late summer of 2027. Most of the new distribution/water mains will not be buried directly under the Village street or State Highway (Rt. 8/Main St.), but rather in the area adjacent to the roadway: Such alignment results in the following benefits: 1) minimized personal inconvenience and closure periods/travel disruption, 2) reduced likelihood for and disruption from future repairs, or 2) avoidance of other existing above and below ground utilities.

For a limited number of properties, the work area will exceed the legally-acknowledged definition of Right of Way and include the strip of a property owner's land between the interior (house-side) lie of the sidewalk and the roadway curb/shoulder. Disruption in the impacted areas will be minimized and any temporary changes to the work area will be fully restored.

Residents whose properties may be impacted during construction are being asked to grant either a permanent and/or temporary easement. Granting the requested easement will allow the Village and the hired contractors access to this specific area of their property for purposes of construction and subsequent maintenance needs. While the requested area may be disturbed during construction and future maintenance activities, the area will be restored to its pre-existing condition following the completion of the work.

Many property owners who previously a request for such an easement have already signed and submitted a notarized version of their easement.

Those potentially impacted property owners who have not completed the process outlined above will be receiving another notice and easement document from the lead project engineer, Barton & Loguidice. The Village of New Berlin Board of Trustees requests that upon receipt of this second mailing, residents and businesses 1) return the completed and notarized easement to the Village of New Berlin Office (13 South Main Street) or 2) mail them to Barton & Loguidice, 443 Electronics Parkway, Liverpool, NY 13088.

To facilitate the easement approval process, an open meeting will be held on Wednesday, November 19th from 5:30-7:30 PM at the Chobani Community Center, 75 S Main St, New Berlin, NY 13411. At this meeting, Barton and Loguidice engineers will be available to address property owners' questions/concerns regarding their particular easement. A free notary service will also be available to complete the legal execution of the easements. Property owners are asked to bring a driver's license or other form of photo identification to execute the notarization process.

The Board of Trustees of the Village of New Berlin and Barton and Loguidice thank the residents and property owners within the Village for their continued cooperation and support in this effort to improve the water flows and quality for generations to come. Further questions should be addressed to the Village of New Berlin Village Office (607-847-6389; e-mail vgnewberlin@stny.rr.gov) or the Barton & Loguidice project engineer (Lauren Howard) directly at 315-378-8546.

Deer Hunter's Guide

Catch the Cruise

Evening Sun Outdoor Chenango Columnist Eric Davis

In mid- to late October, whitetail bucks start to think about the first doe that comes into heat. When the day length gets short enough, it triggers a response where they know a doe must be starting to come into estrous. In hopes of being the first buck to find her, bucks will start to roam trying to get the scent of that doe. This search is often referred to as cruising, as the bucks are just covering as much ground as they can while checking out the common doe hangouts. Cruising might only last a few days, but those are some of the best times to catch a mature buck making a mistake.

Cruising bucks can be susceptible to calling. As they search high

and low for that doe, they may cross into another buck's territory. So, if you see a buck that is cruising, grunting at him may make him think another buck has come into his territory and is stealing his doe. Blind calling can also work during the cruise. Rattling antlers that sound like a couple of bucks trying to decide who is in charge can draw in a crowd to witness it and potentially want to be the next one in the fight.

Using a doe-in-heat urine can bring a buck in on a string when used properly. Put the urine on a wick and drag the wick behind you as you walk to your stand or blind. Try to drag it across as many deer trails as you

can on your way in. Plan your approach so the wind is not carrying scent from your stand to the scent trail you create. Once you get close to your stand, decide what path you want the deer to take as it comes in. Then walk that route with the drag, ending at a place where you have a clear shooting lane. Hang the wick on a branch and add some more urine to it. Be prepared as does may also follow the scent trail. The first deer I shot with a bow was a doe that follow a scent drag to my setup.

If you prefer to keep a more hands-off approach by skipping the use of lures or calls, hunt food sources. Bucks will be trying to pack on some last-minute fat reserves before the rut is fully here. So, think

carbohydrates when thinking of the food. Hard mast such as acorns or agriculture leftovers like corn or soybeans will attract deer as the temperatures start to drop. Set up on the downwind side of the feeding areas and you might catch a buck trying to slip in and smell out a hot doe before going out to feed himself.

Whether you call, use scent, both, or none, remember to pay attention to the details of your hunt and what you might see. Deer look back to see other deer that are following them, so be ready as

the next deer coming could be the buck your after. Remember to wait to move or draw until the deer's vision is obstructed by something, such as a branch or some leaves.

Deer Hunter's Guide

Doing all the rights things can still go wrong

Evening Sun
Outdoor Chenango
Columnist Eric Davis

It was the Sunday of Columbus Day weekend and I had elected not to bow hunt in the afternoon so I could get some projects done around the house that I had been putting off. Just a couple minutes before six o'clock my phone rang

and it was my brother-in-law. I knew the reason he was calling before I answered. "I just shot a buck" were the first words he said. After that he asked if I could come down and help him track it. I gathered my spotlight, headlamp, and license before heading out. I got to his house around

6:30. As I walked up to the house, he emerged from the edge of the yard on his way back. I asked the standard questions of how far was the shot, could you see where you hit him, and what did he do after getting hit? After waiting a little longer at the house, we headed up to the stand where he shot from.

Once there I asked to go to where the deer was standing when he shot. I tied a piece of flagging tape up as reference. We followed the direction the deer took after being hit and found some blood after 10 yards or so. The blood was a rich red, no bubbles to show a lung shot but no stomach contents to indicate a gut shot. We continued to follow the blood trail and after 75 yards or so, we found the arrow on the ground thanks to the

lighted nock. We carefully inspected the arrow and kept on tracking as the arrow was covered in blood, meaning it had worked its way through the deer. As expected, the blood trail got better as the arrow was no longer plugging the wound channel. However, after another 50 yards the trail started to get lighter. As I was inspecting the blood on the edge of an ATV trail, my brother-in-law had gone forward some to look for the next blood when the deer got up and bounded off. I marked the trail edge with more flagging and we backed out for the night.

Monday morning, we picked up at the last blood. After looking around the downed tree where the deer had taken off from, we found where it had been bedded down. The buck had headed out into a large goldenrod field. Remembering where it sounded like he headed, we looked out in the goldenrod and found some more blood. We followed spotty blood (if you have ever tracked a deer through goldenrod you know how tough it is) for another 50 yards before it began to really peter out. Knowing the general direction he was headed from the previous blood, we

slowly worked that way. We had pretty much given up and had left a voicemail with someone who has a tracking dog when we found a tiny spot of blood that gave us a final bearing on the path he took. We had almost walked out of the goldenrod when I noticed a trail going from an apple tree out into the alfalfa field bordering the goldenrod. I went over to the trail, looked in the field, and spotted something on the ground. After another two steps, I realized it was a deer but it was beat up. My first thought was that it was a deer that had been hit by a car and made it that far from the road (about 100 yards) but I noticed that the deer had antlers. After shouting that I had found it, we convened at the carcass. The deer had been discovered and fed on by coyotes. Both hindquarters had been chewed as well as the body cavity. Before moving the carcass, we located the exit hole and I grabbed a stick to check out the shot angle. The stick passed less than an inch behind both lungs and had put a triangular hole in the liver. The shot was lethal, the coyotes just happened to find the deer before we could. It just goes to show that you can do the right things, like backing out after jumping a wounded deer and waiting until the morning just to have something bad happen like coyotes finding the carcass.

LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of an individual or online and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$4-6K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

PETS, AUTOMOTIVE AND rentals, oh my! The Pennysaver has it all!
