“EXPERIENCE”

February 1, 2026

Schoharie County Office for the Aging

518-295-2001

February is American Heart Month

National Wear Red Day® Friday, Feb. 6

Laughter Is Good For The Soul

- I’ve reached the age where my back goes out more than I do.
- At my age “running late” is considered cardio.
- I’m not arguing-I’m just explaining why I’m right.

We will be offering Grab & Go meals HERE at Office for the Aging 113 Park Place Suite 3, Schoharie – Tuesday-Thursdays in the Community Room from 11 am – 1 pm. Please call us to reserve a meal! 518-295-2001.

Fun Fact! The human brain is more active when daydreaming than when focusing. That’s not zoning out-that’s advanced thinking.

Life Chat: Schoharie County Office for the Aging invites you to learn some great information on Heart Health, presented by HCR-Homecare. February 25, 2026, 1PM at the Office for the Aging, 113 Park Place, Suite #3, Schoharie, Ny 12157. Door prize and light refreshments! Questions or to RSVP contact Lenore Tsamis at 518-295-2001.

Important Tax Prep Update: Our tax site will now have an income threshold for the year 2025, your income must be under **\$69,000** and you must be at **least 60 years** old or older to be completed at Office for the Aging. The process will be very similar to last year; a drop off appt, copies and intake left here for volunteers to complete, and then a pick-up appt to review and approve for e-filing. Please note we have screening questions we must ask everyone. Thank You for your patience. Call for an appointment 518-295-2001.

Reminder The Parkinson Support Group meets the second Tuesday of every month, at 1PM, the next meeting will be February 10, 2026, at The Gathering Place, 127 Kenyon Rd. Cobleskill, please call Lenore Tsamis at 518-295-2001 to RSVP or please have any questions.

Medicare Reminder: Part D Covered Vaccinations

If your provider recommends that you get a vaccine, in most cases it will be covered by your Part D plan.

Part D plans must include most commercially available vaccines on their formularies, including the vaccine for shingles (herpes zoster). The only exceptions are flu, pneumonia, hepatitis B, and COVID-19 vaccinations, which are covered by Part B.

As of January 2023, all Medicare-covered vaccines should be free to you. This means you should not owe any cost-sharing, such as a copayment, coinsurance, or deductible for your covered vaccines. To avoid billing issues, it is usually best to make sure that your health care provider or pharmacy administering the vaccine will bill your Part D plan. When you get a vaccine at your doctor’s office, ask the provider to call your Part D plan first to find out if your provider can bill your Part D plan directly.

Thought for the week.... Life is too short to match socks or explain yourself.

Winter Survival

Interesting facts about winter

The winter solstice marks the first day of winter. For people residing in the Northern Hemisphere, Tuesday, December 21, 2021, heralds the official arrival of winter (the Southern Hemisphere's winter solstice is on Sunday, June 20). Though it's common to think of the winter solstice as an event that spans an entire day, it actually occurs for just a moment — specifically when a hemisphere is tilted as far away from the sun as it can be. Winter is widely known as the coldest time of the year in most locales, but that's not the only thing that makes the season unique. Explore these other cold, hard facts about wintertime.

- The Earth actually is closest to the sun in December, even though

the winter solstice is the shortest day of the year. The amount of daylight hours has to do with the tilt of the Earth on its axis rather than its proximity to the sun.

- The Southern Hemisphere, due to having less land mass and a more maritime climate, tends to have milder winters than the Northern Hemisphere.
- According to Smithsonian, ancient Romans used daylight and darkness to determine the time. As a result, an hour in ancient Rome lasted 45 minutes in the winter and 75 minutes in the summer.
- Two islands, called Big Diomedes and Little Diomedes, are located in the Bering Strait, which divides Alaska from Russia. Big Diomedes is owned by Russia, while

Little Diomedes is owned by the United States. The 2.5 mile stretch between these two islands often freezes over in winter, technically making it possible to walk from the U.S. to Russia, according to Alaska Centers Public Land Information.

- Snow is common in many areas during the winter. The highest snowfall ever recorded in a one-year period in the U.S. occurred at Mount Rainier, in Washington. Between February 19, 1971, and February 18, 1972, 31.1 meters (1,224 inches) of snow fell.
- Russia remains the coldest country in the world during the winter. Canada and Mongolia are not too far behind.
- The largest snowflake ever recorded measured 15 inches wide. It was

found in Fort Keogh, Montana.

- A city in Sweden uses light therapy in bus stops to help combat seasonal affective disorder during winter, when 19 hours of darkness are common.
- Unlike hurricanes and other summer storms, winter storms are not named by the National Weather Service.
- Snowflakes are translucent, not white.
- No country in the Southern Hemisphere has hosted or applied to host the Winter Olympics.
- Most weather-related crashes in the U.S.

happen on wet pavement during rainfall rather than during snow or sleet, according to the U.S. Department of Transportation. Winter might be seen as

a cold period marked by dark days. But there's still a lot of interesting things going on between the winter solstice and the spring equinox. TF21C577
